## Web and Mobile Technology Services

### Services

We love challenges and technology. And daily we combine both passions to solve our clients' problems.

We are not pure implementors of technology nor fans of a specific way of doing things; we strongly believe in using the right tool for the job at hand. Our capabilities include:

- [Web Development](#)
- [Web Application Development](#)
- [Web Services](#)
- [E-commerce](#)
- [Content Management](#)
- [Mobile and Tablet Application Development](#)
- [Social Media Platform Integration](#)
- [Search Engine Optimization \(SEO\)](#)
- [Website and Application Usability](#)
- [System Administration](#)

### Technical Skills

We have UNIX roots and are intimately familiar with various Linux flavors including Red Hat and Debian.

We compose with interpreted languages from php to compiled ones like Java.

Some of our skills include:

- [HTML, HTML 5, CSS and CSS 3, Javascript](#)
- [Drupal, Drupal theming and modules, Wordpress, Wordpress theming and plugins](#)
- [Responsive layouts, Mobile layouts, XML, web services](#)
- [php, perl, java, python](#)
- [Apache with SSL](#)
- [Linux, FreeBSD, MacOS X](#)
